Adults with HIV/AIDS	11	8	0	18	37
Adult Survivors of Domestic Violence	324	74	0	82	480

Methodology for TX-500 - San Antonio/Bexar County CoC

Sheltered Population Total

1. What data source(s) was used to produce the total number of people included in the sheltered population (staying in an emergency shelter, Safe Haven, or transitional housing) on the night of the count? Please indicate the percentage of the PIT count derived from each of the sources. (If a source was not used, please enter zero).

HMIS Data	95%
Provider-level surveys	2%
Client-level surveys	0%
Observation	3%
Other	0%
Total	100%

2. Was the CoC able to collect information about the number of people being sheltered on the night of the count from all emergency shelters, Safe Havens, and transitional housing projects listed on the HIC or only some? listed on your HIC or only some?

- Complete census count

3. What information or method(s) was used to de-duplicate the count of the total number of people included in the sheltered population?

- Comparison of personally identifying information (PII), such as name, date of birth, and Social Security Number
- Comparison of unique client identifiers (not PII)
- Interview/survey question(s) with screening questions (e.g., have you already completed a count survey)

Sheltered Subpopulation

4. What data source(s) was used to produce the demographic and subpopulation data included in the sheltered population (staying in an emergency shelter, Safe Haven, or transitional housing) on the night of the count? (select all that were used)

- HMIS Data
- Other:

Point In Time Methodology for TX-500 - San Antonio/Bexar County CoC

extrapolation was used for the 3% of the sheltered count that was not pulled directly from HMIS

5. Was the CoC able to collect information about the demographic and subpopulation characteristics of all sheltered people or only some?

- All sheltered people

6. Looking at the change in your sheltered count from last year's count, please choose up to three reasons that best explains these changes from the drop down list below.

- Increased or improved PIT count training
- Change in rapid re-housing capacity
- Change in permanent supportive housing capacity
- Impact of coordinated entry

Please provide a brief description of these specific factors (500 word limit):

Unsheltered Population

7. What approach(es) was used to count the total number of people included in the unsheltered population during the PIT count. (select all that were used)

- "Night of the count" - complete census
- "Night of the count" - known locations

Point In Time Methodology for TX-500 - San Antonio/Bexar County CoC

7a. Were certain areas within the CoC geography specifically excluded because the CoC had reason to believe there were no unsheltered people in those areas?

Yes

7b. How did the CoC select the areas that were included for canvassing?

- Other: There are 4 military installations located within our CoC's geographic area that are not traditionally counted. These installations are secured and not open to the public. There are 2 public parks located within our CoC's geographic coverage that were not counted. These parks are secured and were not open to the public during the PIT count because the count started after the parks' operation hours.

7b1. Did the CoC adjust the information in some way (e.g., statistical adjustment or extrapolation) to account for areas within the CoC geography that were not canvassed but where unsheltered people might have been on the night of the PIT count?

No

7c. In areas that were canvassed, did the CoC count all unsheltered people in those areas or a sample of people?

- All people encountered during the count

8. What information or method(s) was used to de-duplicate the total count of people in the unsheltered population? (Check all that apply)

- Comparison of personally identifying information (PII), such as name, date of birth, and Social Security Number
- Comparison of unique client identifiers (not PII)

Point In Time Methodology for TX-500 - San Antonio/Bexar County CoC

- Blitz count of unsheltered people (i.e., canvassing of different areas occurred at same time to avoid double counting)
- Interview/survey question(s) with screening questions (e.g., have you already completed a count survey)

Unsheltered Subpopulations

9. What approach(es) was used to collect demographic and subpopulation data about unsheltered people included in the unsheltered population during the PIT count?

- Surveys/interviews of people identified as unsheltered on the night of the PIT count

10. Were all people who were encountered during canvassing on the night of the count or during post night of the count PIT activities asked to complete a survey/interview?

- All people encountered were surveyed

11. What information or method(s) was used to produce an unduplicated total count of homeless people across your sheltered and unsheltered populations?

- Comparison of personally identifying information (PII), such as name, date of birth, and Social Security Number
- Comparison of unique client identifiers (not PII)
- Interview/survey question(s) with screening questions (e.g., have you already completed a count survey)

12. Looking at the change in your unsheltered count from last year's count, please choose up to three reasons that best explains these changes from the drop down list below

- Increased or improved PIT count training
- Change in awareness of PIT count and relevant resources
- Change in rapid re-housing capacity
- Change in permanent supportive housing capacity
- Impact of coordinated entry
- Impact of Housing First practices

Please provide a brief description of these specific factors (500 word limit):

Volunteers used a smart phone application that recorded the GPS coordinates and time stamp of each encounter. This information was used to de-duplicate counts if demographic data was similar between counts originating in the same area.
